

PP Department: Education and Children's Services		RISK ASSESSMENT	Aberdeenshire COUNCIL 
Process/Activity: COVID-19 Infection Prevention & Control	Location: All ECS Establishments	Date: 22.02.21 V012	
Describe activity: ECS establishments opening August 2020 to children, young people, staff, visitors and contractors.			
Establishment Name and Location: Fraserburgh Academy		Isolation Room Location in Establishment: Nursing Assistant's Room	

Hazard	Person/s Affected	Risk	Risk level before controls are in place (delete as appropriate) Low, Medium & High			Control Measures	Risk level after controls are in place (delete as appropriate) Low, Medium & High		
			L	M	H		L	M	H
Spread of infection	Staff Children & young people Visitors	Cross contamination of infection. Infection of staff, children and visitors	L	M	H	<p><u>Additional Guidance for Partial Return From 22.02.21</u></p> <p>Coronavirus (COVID-19): guidance on schools reopening - gov.scot (www.gov.scot)</p> <p>The NERVTAG advice on Mitigations to Reduce Transmission of the New Variant SARS-CoV-2 Virus concluded that a step change in the rigour of application of mitigations is required, given the increased transmission risk associated with the new variant. Schools and ELC settings should therefore place a high priority on reinforcing the current mitigations designed to reduce the risk for children, young people and staff and as set out in the existing guidance on reducing the risks from COVID-19 in schools and the equivalent guidance on ELC settings.</p> <p>2m distancing should be put in place at the current time between secondary-aged learners, in addition to continuing to be in place for staff in secondary schools. This applies to all learners in secondary schools including vulnerable children and the children of key workers. Physical distancing requirements in primary schools remain unchanged e.g. 2m distancing between adults not from the same household should be maintained. There should also be 2m distancing between adults and children whenever possible.</p> <p>Recommended that 2m distancing should also apply on school transport for secondary schools.</p>	L	M	H

No more than 5 – 8% of the secondary school roll should be in school at any time for this purpose, specifically to [support learning in practical subjects that cannot be delivered remotely](#). Education Scotland has published [technical guidance](#) on this.

[Prioritising the return of senior phase learners: Technical guidance for providing senior phase practical work in-school \(education.gov.scot\)](#) which includes the advice:

- *Existing provision for key worker children and vulnerable learners must be factored in when planning in-school provision for practical work, and these groups must be kept separate. If a learner who is part of the existing keyworker/vulnerable learner provision is timetabled to complete senior phase practical activities they must be included in the total that does not exceed 5-8% of the school roll.*
- *Different entrances/exits should be used for senior phase learners attending for this purpose and for the children of key workers and vulnerable learners who are attending for their existing provision.*

Additional guidance: [Coronavirus \(COVID19\): Advisory Sub-Group on Education and Children's Issues – advice on mitigations to minimise transmission during phased return to in-person learning - gov.scot \(www.gov.scot\)](#)

ENHANCED LEVEL 4 CONTROL MEASURES FROM 05.01.2021

From 6 January schools can only open to in-person learning for children of key workers (Cat 1 and 2) and vulnerable children, with remote learning for all other children and young people from 11 January.

Guidance available for parents and carers can be found [here](#).

Children of key workers can attend school from 06.01.21 for school age education and childcare during normal school operating hours. Households where both parents are Category 1 or 2 key workers (or one parent in a single parent household) are prioritised. Please view [Scottish Government guidance on key workers and Category 1 and 2 definitions](#). During the period of lockdown all school staff and staff providing daycare of children's services, including early learning and childcare, who are required to attend their work in person would qualify as category 1 or 2 key workers.

Staffing Ratios

We are working based on a minimum 1:10 ratio for school aged children. For Early Years aged 3-5 year: we are aiming for 1:4 ratio where possible. Minimum of two EY adults needed for pre 5's to ensure cover for lunches etc.

As with all ratios – they are reflective of local circumstances, profile of needs of children and activities being undertaken and a dynamic assessment by school staff will determine the ratios required in the setting/school.

Two staff members are the minimum staffing requirement during opening hours.

- Children on the shielding list should not attend settings (If Level 4 continues for an extended period individualised risk assessments may make it possible for these children to attend. This decision would be made by the secondary care (hospital) clinical team caring for the child.
- Continued care and support for vulnerable pupils will be in place from the period of 6 January.
- If absolutely necessary re-group vulnerable pupils and children of key workers (i.e. move them into different groups to those they were in prior to the festive break). This should be kept to the minimum necessary to ensure effective, safe learning and teaching arrangements are in place. It should be done in a way which meets children’s needs and enables them to engage in learning and teaching which is age and stage appropriate. Upon a full return to school, children and young people may return to their original groupings.
- Line managers should ensure that individualised risk assessment for clinically vulnerable school staff and pupils as set out in the [‘reducing risks in schools guidance’](#) should be followed. Staff should speak to their employer to ensure all appropriate protections are in place. Line managers should ensure clinical advice is taken fully into account when agreeing appropriate mitigations with employees.
- Use individualised risk assessments to ensure appropriate protections are in place. For example - protective measures in workplace; option to work remotely or carrying out different tasks in workplace. If protections cannot be put in place staff should contact their GP to see if they require a “fit to work” note. (The Chief Medical Officer will issue a letter, which is similar to a fit note. This letter will last as long as the Level 4 restrictions apply. Being a receipt of a letter does not automatically mean staff should not attend work, but very careful consideration should be made as to how they can be protected if they do).
- Information on shielding, including who would be considered within the highest risk group, is available in [COVID-19: shielding advice and support](#). Where concerns exist, [guidance for people with underlying health conditions](#) has been prepared and will continue to be updated
- Schools should be prepared to engage in enhanced testing, if recommended by Incident Management Team.
- Physical education within school settings should only take place out of doors. If weather is extremely bad, then schools may use their judgement as to whether it is safe for children to be outside.
- The provision of non-essential activities or clubs outside the usual school timetable should be paused. This does not include regulated childcare operating from school premises.
- All staff and pupils should wear a face covering in classrooms during lessons in the senior phase where pupils are attending the school.

GENERAL CONTROL MEASURES

All young people, staff and any others for whom it is necessary to enter the school estate will be encouraged and supported to maintain COVID-secure personal hygiene throughout the day and ensure continued rigour about hand hygiene.

- frequent washing/sanitising of hands for 20 seconds and drying thoroughly, and always when entering/leaving the building, before/after eating and after using the toilet.
- encouraging young people and staff to avoid touching their faces including mouth, eyes and nose.
- using a tissue or elbow to cough or sneeze, and use bins that are emptied regularly for tissue waste.

Supplies of resources including soap and hand sanitisers will be provided.

The response to the coronavirus COVID-19 outbreak is complex and fast moving. Advice from Government sources will be shared with staff daily on the Aberdeenshire Council staff COVID-19 site: <https://covid19.aberdeenshire.gov.uk/>. **Sector Advice Card** found [here](#). Please display in school to signpost to guidance. COSLA advice can be found [here](#).

[Updated advice 'on reducing the risk in schools' released 30.10.20 can be found here.](#)

Health and safety advice on latex gloves

Disposable Nitrile gloves are usually the glove of choice, during the Covid-19 Pandemic.

Due to known latex allergy risks, latex gloves must only be purchased where there is a reason for them to be used and the [guidance for the use of latex gloves](#) must be followed before staff use the gloves.

Health and safety advice on face masks

All PPE identified by a risk assessment and used to protect employees from infection with COVID 19 must be worn as directed. Type IIR face masks are classed as PPE and as such must not be modified in any way as this would then reduce the protection that the mask offers.

A 3D face bracket (an inner support for face masks) has been used by some staff to add extra comfort when wearing a mask to make it more breathable and stop glasses from fogging. These inserts must not be used when wearing a type IIR mask as the protection offered by the mask cannot then be guaranteed

Face Coverings – Updated guidance from 31 August 2020:

A further [update](#) was published on 30 October
NHS guidance to wearing Type IIR mask in schools found [here](#).

A definition of face coverings (which should not be confused with PPE) can be found in [Covid-19: staying safe and protecting others](#), including Type IIR face masks. Some individuals are exempt from wearing face coverings and exemption information can be found [here](#).

Face coverings should not be required for most children and staff in classrooms, or other learning and teaching environments, unless clinically advised to do so. Where adults cannot keep 2m distance and are interacting face-to-face -a Type IIR face mask should be worn.

Face covering should be worn in the following circumstances (except where an adult or child/young person is exempt from wearing a covering):

At Levels 0-2 Type IIR masks should be worn by adults where they are working directly with others and cannot keep two metres from other adults and / or children and young people across primary and secondary (but with ELC models permitted for early stage, P1-2, as before). **Face coverings** should be used by adults when not working directly with children, for example when moving around settings or when in staff rooms, administrative areas or canteens across all school settings. At all times when adults in primary schools, and adults and young people in secondary schools, including special schools are moving around the school in corridors, office and admin areas, canteens (except when dining) and other confined communal areas, (including staff rooms and toilets

See advice below regarding when Type IIR masks should be worn. [Link to ELC guidance doc found here](#)

At Levels 3-4 face coverings should also be worn by adults and young people in classrooms in senior phase.

At all Levels face coverings should be used by adults when not working directly with children, for example when moving around settings or when in staff rooms, administrative areas or canteens across all school settings. At all times when adults in primary schools, and adults and young people in secondary schools, including special schools are moving around the school in corridors, office and admin areas, canteens (except when dining) and other confined communal areas, (including staff rooms and toilets);

Face coverings should be worn by parents and other visitors to the school site (whether entering the building or otherwise), including parents at drop-off and pick-up.

Pupil Support Assistants and those supporting children with Additional Support Needs who routinely have to work within two metres of **children and young people** should wear **Type IIR face masks** as a general rule. However, the use of opaque face coverings should be balanced with

				<p>the wellbeing and needs of the young person - appropriate use of transparent face coverings may help in these circumstances.</p> <p>In line with the current arrangements for public transport, where adults and children and young people aged 5 and over are travelling on dedicated school transport face masks should be worn (see School Transport section).</p> <p>Where adults cannot keep 2m distance and are interacting face-to-face with other adults and/or children and young people, Type IIR (or, in certain specific circumstances, PPE- see section on PPE and other protective barrier measures, below) should be worn at all times. This applies to all staff including support staff and Pupil Support Assistants. Transparent face-coverings may be supplied where appropriate and used where there is a risk of detriment to the child's health and wellbeing.</p> <p><input type="checkbox"/> In special schools and units, and where there are groupings of children with complex additional support needs, the balance of the staffing complement, the groupings of children and young people and their needs, and therefore the staffing and resources required, (PPE, cleaning of equipment), should be considered/assessed throughout the school day and adjusted where necessary.</p> <p>Instructions on how to put on, remove, store and dispose of face coverings must be provided to staff and pupils:</p> <ul style="list-style-type: none">• Face coverings must not be shared• Hands should be cleaned by appropriate washing or hand sanitiser before putting on or removing the face covering• Face covering of an appropriate size should be worn• Children should be taught how to wear the face covering properly, including not touching the front and not pulling it under the chin or into their mouth.• When temporarily storing a face covering (e.g. during classes), it should be placed in a washable, sealed bag or container. Avoid placing it on surfaces, due to the possibility of contamination.• Re-usable face coverings should be washed after each day of use in school at 60 degrees centigrade or in boiling water.• Disposable face coverings must be disposed of safely and hygienically. Children and young people should be encouraged not to litter and to place their face coverings in the general waste bin. They are not considered to be clinical waste in the same way that used PPE may be. <p>If a learner has forgotten or lost their face covering, they may obtain one from the library.</p> <p>Impact of wearing face coverings on learners with additional support needs and learners who are acquiring English as a language should be considered, and possible clear alternatives explored. Anyone (staff or pupil) who wishes to wear a face covering is free to do so.</p> <p>Additional guidance for all staff who work with and support children and young people with additional support needs can be found here. This includes ASL Teachers, Pupils Support</p>

Risk Assessment EPS for visiting schools can be found [here](#)

Visiting Staff Guidance:

Staff Type	Working Location	Guidance
ASN Pupil Escorts	Transport	<ul style="list-style-type: none"> Do not work with more than 2 contacts per day A contact is defined as one child, a group of children (may be a class), a single member of staff, a group of staff, a parent or carer, a family group. Schools using ASN transport should provide Type IIR face covering/PPE to Pupil Escort. Schools also to support Pupil Escort in their understanding of their responsibilities in adhering to the infection control procedures.
ASN Staff (e.g. ASN Teachers, PSAs, PSWs)	Base school only location	<ul style="list-style-type: none"> Follow school's own guidance and risk assessment as other school staff
ASN Peripatetic Staff (e.g. ASN Teachers, PSAs, PSWs)	Base school & one other location per week	<ul style="list-style-type: none"> Follow the school guidelines in their base school (i.e. the school that the staff member works most of the week in) Only visit one school per day on days not in base school Do not work with more than 2 contacts per day in schools that are not base school A contact is defined as one child, a group of children (may be a class), a single member of staff, a group of staff, a parent or carer, a family group.
ASN Peripatetic Staff (e.g. Relief PSAs)	Working in more than 2 schools per week & does not have a base school	<ul style="list-style-type: none"> Do not visit more than one school per day Do not work with more than 2 contacts per day A contact is defined as one child, a group of children (may be a class), a single member of staff, a group of staff, a parent or carer, a family group. A school will need to know whether a PSA has worked in other schools within the last 7 days, and whether they are working with any other schools, as that will influence whether they need to take into account the number of

						contacts that that PSA can have during their time in the school.			
					ASN Support Services (e.g. EPS, EAL Service, Sensory Support Service, Counselling Service) and Allied Health Professionals	Working in more than 2 schools per week & does not have a base school	<ul style="list-style-type: none"> • Continue to offer a service remotely where possible • Do not visit more than one school per day • Do not work with more than 2 contacts in a school • A contact is defined as one child, a group of children (may be a class), a single member of staff, a group of staff, a parent or carer, a family group. 		
					Supply Teacher	Various schools across clusters	<ul style="list-style-type: none"> • Maximum of 1 school per day, no limit on number of groups but staff advised to reduce the number of interactions • Measures to mitigate risk must be followed – 2m social distancing, good hand hygiene etc • Reduce number of visits where practical, i.e. if usually 3 schools per week – reduce to maximum of 2 • Undertake risk assessment for each staff member 		
					Music Instructors	Various schools across clusters	<ul style="list-style-type: none"> • Measures to mitigate risk must be followed – 2m social distancing, good hand hygiene etc • Maximum of 2 schools per day, reduce number of visits where practical to ideally 1 school per day where possible (originally was in the region of 3-4 schools per day) • Consider fortnightly visits so 1 school per day can be achieved • Consider online learning using Glow or Goggle platform • No brass or woodwind physical instruction at the moment. Consider talking through lesson instead or online learning. • See whole school risk assessment template for more information 		
					Janitorial Staff	Cluster Schools	<ul style="list-style-type: none"> • Where possible a maximum of 2 schools per day, this can be extended at the discretion of the Supervisory Janitor on the undertaking of a dynamic risk assessment • Measures to mitigate risk must be followed – 2m social distancing, good hand hygiene etc • Reduce number of visits where practical 		
Covid-19 – Guidance for non-healthcare settings is available here .									

Health and Safety advice available on Arcadia [here](#) by accessing this link, including: How to handwash, Putting on & removing PPE, Decontamination & cleaning processes for facilities, Optional & mandatory wearing of face coverings:

Health, Safety and Wellbeing policy is available [here](#).

PPE

For the majority of staff PPE will not normally be necessary. Use of PPE in school should be based on a clear assessment of the risk and need for an individual child, ie personal care. Where colleagues need to work in close proximity to a young person, the school will provide Type IIR face mask / PPE for that purpose. A Type IIR mask is not required for moving around communal spaces and corridors, where a standard face covering will suffice as contact within 1m is not face to face for one minute or longer.

Types of PPE required for specific circumstances:

- ROUTINE ACTIVITIES – No PPE required
- SUSPECTED COVID-19 – A fluid-resistant surgical mask (Type IIR) should be worn by staff if they are looking after a young person who has become unwell with symptoms of COVID-19 and 2m distancing cannot be maintained while doing so.
If the young person who has become unwell with symptoms of COVID_19 needs direct personal care, gloves, aprons and a fluid-resistance surgical mask (Type IIR) should be worn by staff.
- INTIMATE CARE – Gloves and apron. Risk of splashing mitigated with the wearing of fluid-resistant surgical mask – Type IIR and eye protection. Gloves and aprons worn when cleaning the area.

Special Consideration for Certain Groups

The school will follow the latest guidance on attendance for children, young people and staff who have health conditions or are pregnant, or who live with individuals who have health. Information can be found [here](#).

Advice is available [here](#) for the education of pupils who are unable to attend school due to ill health. Schools will wish to maintain plans for remote education for some pupils.

Link [here](#) for an occupational risk assessment from the Scottish government and recommended by Health & Safety colleagues for managers with members of staff returning from shielding.

~~From 1 August advice on shielding and protecting people who are clinically extremely vulnerable changed. Identify (and record that this has been carried out for every individual) all staff who are clinically extremely vulnerable with the Head Teacher prior to them entering the school. Link [here](#) for advice for people with specific medical conditions.~~

- ~~• ‘Clinically extremely vulnerable’ staff should be able to attend unless advice from their GP is not to.~~

- ~~Those with a 'clinically vulnerable' household member can attend following a dynamic risk assessment.~~
- ~~Those who are 'clinically extremely vulnerable' should discuss their options with their Head Teacher/line manager~~
- ~~Those who live with someone 'clinically extremely vulnerable'/shielded should attend and carefully follow guidance on staying alert and safe (social distancing) as per online guidance listed above.~~

~~In Protection levels 0 – 2, pupils with the highest clinical risk can continue to attend schools and follow the advice to the general population. Staff with the highest clinical risk can continue to work in schools, following a dynamic risk assessment, and arrangements should be made to enable appropriate physical distancing staying 2 metres away from others wherever possible, in line with current advice on maintaining a safe school environment. Enhanced measures apply to children and young people, and staff, at highest clinical risk in schools in local areas at Protection Levels 3 and 4~~

Protection Level 3 – Enhanced protective measures

- All staff and pupils should wear a face covering in classrooms during lessons in the senior phase.
- Parents or guardians should discuss with their GP or clinician whether children with the highest clinical risk should still attend.

Employers should ensure that individualised risk assessments for school staff members with the highest clinical risk are in place and updated appropriately

Protection Level 4 - enhanced and targeted protective measures

- The current advice is that children on the shielding list should not attend in person.
- Employers should ensure that individualised risk assessments for school staff members with the highest clinical risk are in place and updated appropriately
- Schools should be prepared to engage with enhanced testing responses to Covid outbreaks in schools, where recommended by the Incident Management Team.
- Physical education within school settings should only take place out of doors
- Pausing of the provision of non-essential activities or clubs outside the usual school timetable.

The school will consider the possibility of clinically extremely vulnerable staff working from home, (for example, supporting remote education), or where that is not possible, carry out the lowest-risk roles on site, with social distancing of at least 2m. Clinically extremely vulnerable staff electing to waive this right must have discussed it with their doctor and head teacher.

The school will endeavour not to staff in vulnerable groups to cover for absent colleagues.

The school will ensure up to date risk assessments for children on EHC plans, are carried out with educational providers, parents/carers and appropriate health practitioners, to ensure child is at no more risk in the school setting than at home.

Parents and carers may wish to have a discussion with their child's healthcare team if they are unsure or have queries about returning to school because of their health condition.

Behaviour risk assessments for individual pupils have been completed where necessary and are available in sharepoint.

General Advice - Staff and Pupils

Staff or pupils should be identified who are, or who live with someone who is, symptomatic or a confirmed case of COVID-19. They cannot return to school until self-isolation is over. Clear messaging to parents/carers that pupils must not attend if they, or a member of their household, has COVID-like symptoms or a positive test will be repeated regularly. Aberdeenshire Council staff can access testing advice [here](#), with NHS advice [here](#).

Movement between schools should be kept to a minimum until further notice. Lower risk methods for some input – digital/virtual means, or outdoor settings will be considered. Where movement across locations is necessary to deliver school operations the number of interactions should be minimised. It is recommended that staff who have a closer interaction with pupils limit their movement between schools to two sites per day, for example teaching staff, temporary/supply staff and visiting specialists. Members of the janitorial team who have a more limited interaction with pupils and other staff can consider undertaking additional site visits to undertake facility management tasks following recommended control measures of social distancing and handwashing/hand sanitising.

Guidance for ASL Teachers, Pupils Support Assistants, Pupil Support Workers, School Escorts, Aberdeenshire Specialist Technology Service (ASPECTS), Educational Psychology Service, English as an Additional Language (EAL) Service, School Counsellors, Sensory Support Service can be found [here](#). [ASN FAQs](#).

Consider adapting working practices for administration staff. For example, stagger times at which work is done in the school office, or breaks are taken; restructure workflows to allow for physical distancing of 2m to be implemented. Minimise movement of individuals between workstations in the school office. Limit the number of non-admin staff entering the office. Erect plastic screens beside working area. Where they are shared make sure there is cleaning between use. Some office staff will work in an adjacent room to allow for physical distancing.

Teaching staff may consider working from home but must first discuss with their line manager and the Cluster Business Manager and sign out in the school office.

Plan to resume taking twice daily registration and record the appropriate absence codes both existing and COVID-19 related. Registration must be in accordance with Guidelines on Managing and Promoting Pupil Attendance in [secondary schools](#).

A risk assessment will be completed for all pupils attending multiple educational settings ie NESCOL and consideration needs to be given to groupings. Learners in the senior phase who attend NESCOL should ensure that they follow the [guidance on the appropriate approach to these specific circumstances while on campus](#). This has now been included in updated guidance for colleges.

				<p>Where possible groups will be kept apart. The movement of groups across different parts of the school estate will be reduced where possible. Class teachers are reminded not to allow pupils to leave class early, or to stand outside rooms towards the end of periods.</p> <p>Year group and House assemblies are suspended until further notice. Assemblies will take place virtually during registration using GLOW teams or other digital platform.</p> <p>All staff meetings will be conducted using digital technology such as Teams or Skype (unless appropriate physical distancing can be maintained).</p> <p>Clear signs will be displayed around the school as reminders to staff and learners regarding physical distancing and how to handwash properly. The messaging regarding handwashing if sneezing or coughing will be reinforced regularly. Young people will be supported to follow guidance.</p> <p>The emergency evacuation procedures/ fire drill has been revised to keep 2m separation where possible for staff. Drill practice will be carried out with staff and pupils lead by the Head Teacher. In the event of an emergency all people occupying the site should evacuate as quickly as possible (without panic) and then when at assembly point they can revert to physical distancing.</p> <p>It is suggested that young people and staff consider tying up long hair and changing clothes daily.</p> <p>Distancing will be encouraged with all pupils, particularly in the senior phase. Pupils will be encouraged and supported not to crowd together or touch each other.</p> <p>For all year groups hand to hand greetings/hugs will be discouraged. All available space to promote distancing where possible will be used. There is a requirement for adults to remain 2m distant from pupils and adults.</p> <p>All pupils will be asked to bring their own essential items for their individual use – pen, pencil, rubber, ruler, calculator, hand sanitiser, tissues. Packs for PEF pupils will be available.</p> <p>Support for minority ethnic children, young people and staff The concerns within Minority Ethnic communities must be recognised and individual requests for additional protections should be supported wherever possible. Local authorities should ensure that managers in school have sensitive, supportive conversations with all Minority Ethnic staff, which also consider their health, safety and psychological wellbeing and personal views and concerns about risk. Wellbeing support services should be promoted to all Minority Ethnic staff. Employers should be mindful of their duties under the Equality Act 2010 at all times. All Minority Ethnic staff from South Asian backgrounds with underlying health conditions and disabilities, who are over 55, or who are pregnant, should be individually risk assessed, and appropriate reasonable adjustments should be made following risk assessment.</p> <p>General Advice - Facilities</p>			
--	--	--	--	---	--	--	--

				<p>Ensure regular cleaning (at least twice daily) of commonly touched objects and surfaces (e.g. handles, shared surfaces desks / technology surfaces / dining tables), toilet areas, changing rooms and staff areas. Additional cleaning will be provided by Cleaning Services. Where there may be capacity gaps the janitorial team will help support where there is capacity to do so. The allocation of this will be based on formula based on school size.</p> <p>Pre-Covid 19 expectations would apply for cleaning down areas. Cleaning materials to be made available throughout the day for staff and there will be provision of adequate cleaning resources for staff to prepare their own workspaces for working. There is no expectation that teaching or PSA staff to clean communal areas or toilet facilities. The location of materials will be agreed locally, and Janitorial Staff can provide assistance in provision of materials.</p> <p>As a minimum, frequently touched surfaces should be wiped down at the beginning, and, or end of each day, and more frequently during the day depending on the number of people using the space, whether they are entering and exiting the setting, and access to hand washing and hand-sanitising facilities. Cleaning of frequently touched surfaces is particularly important in bathrooms and communal kitchens. When cleaning surfaces it is not necessary to wear PPE. Health Protection Scotland documentation can be found here.</p> <p>When using Covid Guard please ensure that all surfaces are wiped down after the contact time of 5 minutes has passed. Other products may be used on the same surfaces and while not dangerous the effectiveness of the disinfection process may be reduced if the guidance is not adhered to. In its undiluted form Covid Guard should not be stored with Oxivir or Sani 4 in 1.</p> <p>Janitorial staff will be able to support with the provision of bins for tissue waste in classrooms. Highlight missed opportunities for social distancing and appropriate handwashing where staff, pupils or parents forget the safety rules.</p> <p>All toilet areas to contain signage highlighting good handwashing routines.</p> <p>Ventilation Leave non-fire doors open to reduce the amount of contact with doors and also potentially improve workplace ventilation. Fire doors without mag locks should not be wedged open. Open windows to improve the flow of air where possible. Principal Teachers Faculty are asked to make sure that all faculty staff keep doors and windows open as much as possible. When considering classroom activities and external noise, staff may consider partial closure of a door but ensuring the door is still open and allows for circulation of air.</p> <p>Where it's not possible to keep doors and windows open and centralised or local mechanical ventilation is present, systems should be adjusted to full fresh air. When changing filters enhanced precautions should be taken. Ensure systems do not automatically adjust ventilation levels due to differing occupancy levels.</p> <p>Measures to improve ventilation should be viewed as just one part of the overall package of control measures in schools. Schools should continue to ensure a focus on implementation and</p>			
--	--	--	--	--	--	--	--

					<p>maintenance of wider controls including personal hygiene, symptom vigilance, enhanced cleaning and distancing.</p> <p>Schools should as a minimum ensure that adequate levels of ventilation and appropriate temperatures are maintained, with reference to the School Premises Regulations. The primary effective method of increasing natural ventilation remains the opening of external doors, vents and windows. Wherever it is practical, safe and secure to do so, and appropriate internal temperatures can be maintained in line with statutory obligations, this approach should be adopted.</p> <p>Fire Safety Risk Assessment should always be reviewed before any internal doors are held open</p> <p>Ventilation</p> <ul style="list-style-type: none"> partially opening doors and windows to provide ventilation while reducing draughts opening high level windows in preference to low level to reduce draughts purging spaces by opening windows, vents and external doors (e.g. between classes, during break and lunch, when a room is unused, or at other suitable intervals if a space is occupied for long periods at a time) <p>Temperature</p> <ul style="list-style-type: none"> providing flexibility in permissible clothing while indoors. designing seating plans to reflect individual student/staff temperature preferences adjusting indoor heating to compensate for cold air flow from outside (e.g. higher system settings, increased duration) <p>Centralised or local mechanical ventilation systems should wherever possible be adjusted to full fresh air. Air recirculation should be avoided or minimised.</p> <p>Updated guidance for ventilation can be found here</p> <p>Janitorial Support Teams are able to support with the logging of any calls concerning window opening faults if detected. FES have been advised to prioritise any calls for windows that cannot open / are hard to open.</p>				
People with symptoms attending ECS sites	Staff Children & young people Visitors	Infection of staff, children and visitors	L	M	H	<p><u>PEOPLE SYMPTOMATIC ATTENDING ECS ESTABLISHMENTS</u></p> <p><u>Staff, pupils and parents that they should not come to school if they or someone in their household has developed symptoms (new persistent cough, fever or loss of, or change in, sense of smell or taste)</u> They should self-isolate straight away, stay at home and arrange a test via www.nhsinform.scot or the staff referral portal. All staff and pupils will be reminded of this each day when asking questions regarding COVID symptoms during registration.</p>	L	M	H

					<p>Guidance should be followed from NHS Inform and from Test and Protect here. The school will ensure this process is understood and cases in schools, as complex settings, will be prioritised and escalated to specialist Health Protection Teams.</p> <p>All class teachers should have a seating plan for every class which is regularly updated.</p> <p>The school will use existing methods and channels of communication with parents/carers to reduce the need for face to face meetings/contact: Group Call; text; email; phone; Website; Facebook and Twitter.</p> <p>All staff and pupils will be reminded that if they develop symptoms, they should be sent home. Protocol has been established to deal with staff or pupils displaying possible COVID 19 symptoms.</p> <p>Office staff routinely check with parents of pupils returning from overseas about countries visited and to check if the necessary testing and self-isolation has been carried out.</p>

ordered by, and held at, the Cluster Academy. CSN Support Service Co-ordinators have the lead on this locally. Head Teachers notified of local procedures.

Facilities informed and deep clean carried out of areas deemed exposed to potential infection following [covid-19-decontamination-in-non-healthcare-settings](#) guidance. Additional information found [here](#).

The school will maintain accurate register of absences for staff and pupils – codes for this have been developed in SEEMiS.

COVID related illnesses during attendance at establishments

If a pupil or member of staff presents with Covid related symptoms whilst at school please see the information below, and NHS guidance and flowchart [here](#) with NHS FAQs [here](#) as a guide to the response required. Advice [here](#) for people advised to self-isolate. See below for OUTBREAK MANAGEMENT

With the Individual

1. Student / Staff member removed and sent to the designated isolation room/space, putting on the face covering that has been provided.
2. School Office phoned to request immediate collection / staff member returns home.
3. Parent//carer or staff should be made aware of the Test and Protect process, and the school also consult with local HPT.
4. First Aider contacted with COVID related symptom advice, puts on relevant PPE – supervises ill user until collection (supervised outside the room).
5. School office notifies supervisory janitor to have the designated isolation room/space and any toilets used deep cleaned.

With the group/class

1. Where student/staff has been identified displaying COVID related symptoms, lesson proceeds in situ for the remainder of that period or the class decanted to another area (local decision from dynamic risk assessment undertaken).
2. When decanting the staff member adds sign to the outside of the door putting the room out of use for that day and a sign on the relevant workstation.
3. Staff member notifies line manager and supervisory janitor to enable deep cleaning to take place.
4. Alternative locations are found for classes due to be in that room/area.

Supervisory Janitor should be informed and clean carried out of areas deemed exposed to potential infection following [covid-19-decontamination-in-non-healthcare-settings](#) guidance.

Advice from the Health & Safety team is that once a symptomatic person has left the premises the area/room where they have been needs undergo an enhanced clean as soon as possible. Building management should quarantine immediate work area and any area the individual has spent more than 15 minutes in. These areas should be cordoned off to a 2m radius. Building management should affix signage notifying the area is out of use. Investigation as to where the individual has been needs to be identified by building management and reported to Cleaning Services.

				<p>The remaining pupils and staff member are not symptomatic and the person who has left is not a positive case until deemed so from test results. Until such time as the class / environment is clean then the school will look at suitable options for the classes to be relocated if this is deemed to be the most suitable course of action, for example the pupil or member of staff has been moving around the room. This needs to be undertaken with sensitivity as to not cause unnecessary alarm or identify the reason why the pupil or staff member has left the space. It may be decided if the period is near its end that it is appropriate to remain in the class until the change of period, especially if the pupil has been sat in one space and not interacted with other pupils. A local decision through completing a dynamic risk assessment of the situation would determine the course of action. Also remember that staff should be maintaining physical distancing and along with children focusing on hygiene measures.</p> <p>It is only if a positive result is confirmed then steps are taken to Test and Protect. Test and Protect in education, which is considered complex, allows for rapid testing of symptomatic children or staff for that matter. Until that result is confirmed positive then there is no need for others to self-isolate until either showing symptoms or being contacted by contact tracers.</p> <p>The following advice is available in: https://hpspubsrepo.blob.core.windows.net/hps-website/nss/2973/documents/1_covid-19-guidance-for-non-healthcare-settings.pdf</p> <p>Environmental decontamination (cleaning and disinfection) after a possible case has left a workplace or other non-healthcare setting</p> <p>Cleaning and Disinfection</p> <p>Once a possible case has left the premises, the immediate area occupied by the individual, e.g. desk space, should be cleaned with detergent to remove organic matter such as dust or body fluids then a disinfectant to kill pathogens. This should include any potentially contaminated high contact areas such as door handles, telephones and grab-rails. Once this process has been completed, the area can be put back into use.</p> <p>Any public areas where a symptomatic or COVID-19 diagnosed individual has only passed through (spent minimal time in), e.g. corridors, and which are not visibly contaminated with any body fluids, do not need to be further decontaminated beyond routine cleaning processes. Environmental cleaning and disinfection should be undertaken using disposable cloths and mop heads using standard household detergent and disinfectant that are active against viruses and bacteria. Follow manufacturer's instructions for dilution, application and contact times for all detergents and disinfectants. All cloths and mop heads used must be disposed of and should be put into waste bags as outlined below. The person responsible for undertaking the cleaning with detergent and disinfectant should be familiar with these processes and procedures.</p> <p>In the event of a blood and body fluid spillage, keep people away from the area. Use a spill-kit if available, using the personal protective equipment (PPE) within the kit or PPE provided by the employer/organisation, and follow the instructions provided with the spill-kit. If no spill- kit is available, place paper towels over the spill, and seek further advice from the local Health Protection Team.</p>

						If the case is a member staff iTrent will also be updated.			
Spread of infection. Infection of staff, children & visitors.	Staff Children & young people Visitors	Cross contamination of infection. Infection of staff, children and visitors	L	M	H	<p><u>CLASSROOM MANAGEMENT</u></p> <p>Staff and pupils will be reminded at the start of period 1 each day about physical distancing rules. All staff and pupils will be asked if they have any of the three symptoms of COVID-19.</p> <p>A 2m buffer zone has been established at the front of each room. Tape has been issued to each faculty to be used to mark as necessary. Staff should adjust class space if required, and where possible to maintain spacing between desk and individuals. Pupils should be seated side by side and facing forward, rather than face to face. Avoid situations that require young people to sit/stand in direct physical contact with others. Where they need to move to perform activities this should be organised to minimise congregation.</p> <p>Principal Teachers should consider altering class size composition to create more space by evening out class sizes. Encourage social distancing where possible.</p> <p>Pupils should be instructed to keep bags on the floor and no placed on their desks or worktops.</p> <p>Reduce the unnecessary sharing of resources as much as possible, including textbooks. Reduce the range of resources to be used in the classroom. Re-plan lessons / activities to avoid shared resources.</p> <p>Teachers are reminded to ensure that all shared resources are cleaned after each user (including computers, PE equipment etc) and this should be built into end of lesson activity routines in each setting. The school will ensure that antibacterial spray and paper wipes are available in all rooms. Teacher should ensure that students wipe down desk area, chair and resources after use if a shared space/resource.</p> <p>Additional cleaning will be provided by Cleaning Services and Janitorial Support for touch points in communal areas and will be organised locally.</p> <p>Remove resources which present cleaning challenges.</p> <p>Try to avoid working with paper/other materials that are shared in a way that may aid transmission, i.e. consideration to be given to marking work (done electronically), photocopying, etc.</p> <p>Where there is a sink in the classroom, soap and paper towels should be available. Bin placed near sink.</p> <p>Keep surfaces clear to make cleaning easier.</p> <p>Classrooms to be kept well-ventilated. Non-fire doors should be propped open to reduce the number of touch surfaces (see more detailed guidance under General Guidance) and windows opened.</p>	L	M	H

				<p>Hand sanitiser will be available in every classroom and young people encouraged to use this on entering the room.</p> <p>Consideration to be given to the teaching of curriculum in practical subjects and how this can be amended to ensure minimum contact with equipment. Any equipment used to be properly cleaned after use.</p> <p>Updates of Curriculum Changes</p> <p>Physical Education</p> <ul style="list-style-type: none">• Children aged 11 and under can play organised contact sport both indoors and outdoors.• Organised outdoor contact sports such as rugby can re-start for people of all ages.• For outdoor coaching sessions, there is a limit of 30 on the total number of people who can be coached at one time.• When in an indoor facility, those ages 12 and over can participate in organised contact and non-contact sport. <p>Please note: When a school is under protection level 4 mitigations, physical education within school settings should only take place out of doors. If weather is extremely bad schools may use their judgement as to whether it is safe for children to be outside.</p> <p>Other Curriculum Areas</p> <ul style="list-style-type: none">• Guidance on other subjects with practical experiential learning, such as music and drama have not been altered at the point. All advice is kept under review and will be updated as appropriate. <p>Updated guidance for PE found here. Arrangements are in place for the cleaning of the changing areas.</p> <p>Changing rooms are an area of increased risk of transmission and should be avoided where possible,</p> <p>Following a risk assessment, if the use of changing rooms is considered necessary, schools should ensure mitigating actions are in place. This includes ensuring that changing rooms are as well ventilated as possible, used only by small numbers at any point in time to maximise physical distancing, and that close attention is paid to cleaning surfaces after use.</p> <p>If changing rooms are not used:</p> <ul style="list-style-type: none">o consideration should be given to alternative places for storing learners' belongings, for example, assigning each learner their own space;o young people should be encouraged to arrive at school in their PE kit on days when physical education lessons will take place and, where possible, wait until they get home to change.			
--	--	--	--	---	--	--	--

From 2 November 2020, if staff complete risk assessments that reflect the most current advice (all risk assessments should be proportionate to the relevant protection level of the local area), and mitigations are in place, physical education can take place both indoors and outdoors as follows:

Level 0 – 3

Primary	Indoors	Outdoors
	Children can participate in contact and non-contact activities.	Children can participate in contact and non-contact activities.
Secondary	Indoors	Outdoors
	Young people can participate in contact and non-contact activities.	Young people can participate in contact and non-contact activities.

Level 4 – Children and young people within school settings can only participate in activities that are non -contact and outdoors.

Practical considerations for PE in schools:

Minimising contact between individuals and groups

- As a precautionary approach schools should encourage physical distancing where possible between adults, and between children and young people, particularly in the senior phase.
- There should be an enhanced focus on activities that do not involve close physical contact. This will contribute to further lowering of any risk involved.
- During contact activities, physical distancing does not need to be maintained during play, but should be applied at all other times.
- Schools should ensure young people wear face coverings, if indoors, before and after activity, or when in non-playing areas of the physical education department, for example, changing-rooms. There is a legislative exemption for exercise in respect to wearing a face covering. This is consistent with the advice from WHO.
- Wherever possible, efforts should be made to keep children and young people within the same groups.

- The teacher should have an assigned area to ensure 2 m spacing. This should be clearly marked. Staff should wear a face covering out with this designated area when interacting with young people or supporting practical tasks. Coronavirus (COVID-19): Guidance on reducing the risks from COVID-19 in schools Para 92: where adults cannot keep 2 m distance and are interacting face-to-face with other adults and/or children and young people, face coverings should be worn at all times. This applies to all staff including support staff and classroom assistants.
- Teacher demonstrations/explanations could be done from an assigned area to ensure they stay an appropriate distance from learners.

Guidance for Home Economics, Science and Technologies, Art, Design and Photography found [here](#). at the Education Scotland National Improvement Hub, and [here at SSERC](#).

Library books will be quarantined for 72 hours upon the return to the library.

Instrumental Instructors

Guidance for Singing, Woodwind and Brass instruments can be found here: <https://education.gov.scot/media/dwlgsrax/music-guidelines-17-02-2021.pdf>. For other instruments the normal social distancing of 2 metres may be considered sufficient provided there is appropriate ventilation in the room.

The practical nature of the subject may mean that there are exceptional situations in which the 2 metres distancing cannot be observed for a short period of time for a specific purpose. In these instances, face coverings should be worn by instructors.

Where ensemble work is being considered, social distancing measures must be implemented. An upper limit placed on the number of people who can be involved, including staff and pupils should be agreed between instructors, IMS and the school. Conductors should be able to stand 3-5 metres beyond the front row of the ensemble. Plexiglass screens or similar should be considered by instructors and school departments. Each player (including strings) will require their own music stand.

Where pupils attend a virtual lesson in a designated area, the area will require suitable cleaning to the required standard, following each lesson, by a member of staff. Consideration to be given to pupils receiving training with a view to cleaning the area with staff supervision. In addition, time should be allowed following each lesson to allow for adequate ventilation.

Shared instruments such as piano, drumkit, tuned percussion, audio equipment and music stands should be cleaned between pupils
 Pupils should clean their own instruments under the guidance and instruction of the instructor
 Pupils should not be allowed to blow or tip water from instruments in the teaching room. Newspaper or paper towels (or anti-bacterial paper) should be provided for the venting of water keys and pupils should remove and dispose of their own at the end of the lesson

					<p>Mouthpieces must not be shared (in the event of Brass and Woodwind lessons being delivered face to face. These activities are currently to be avoided)</p> <p>Drumsticks should not be shared</p> <p>Bows should not be shared</p> <p>Each pupil should have their own copies of sheet music.</p> <p>Handheld instruments should be cleaned before and after use and issued to one pupil for the duration of a lesson.</p> <p>Consideration should be given to the use/cleaning of Timpani regarding different players using the instrument during a rehearsal, or whether one pupil should remain on the instrument for the entire session.</p> <p>Marking Jotters</p> <p>It is recommended that guidance should be in place to reduce or stop the need for teachers to handle pupil jotters. Alternative strategies include - individual whiteboards; oral responses; self-assessment; group/class marking of own jotters with group/class discussion to support; a visual response through physical activity; using IT, etc. School staff should be encouraged to discuss and agree approaches within the school which mitigate against teachers handling jotters.</p> <p>There are two potential approaches to mitigating risks from surface contamination of jotters, textbooks and library books. Schools should consider which of these approaches is most appropriate for their circumstances as part of appropriately updated risk assessments.</p> <p>(i) quarantining books for 72 hours remains an effective measure to mitigate the risks of handling them.</p> <p>(ii) Careful hand washing with soap and warm water/use of alcohol-based hand sanitiser before and after handling text books, jotters (or other pieces of equipment) mitigates the need for quarantine for 72 hours before, and 72 hours after</p> <p><u>The provision of activities or clubs outside the usual school timetable</u></p> <p>The COVID-19 Advisory Sub Group on Education and Children's issues has also published advice on school trips which include an overnight stay.</p>				
<p>Spread of infection.</p> <p>Infection of staff, children & visitors.</p>	<p>Staff</p> <p>Visitors</p>	<p>Cross contamination of infection.</p> <p>Infection of staff, children and visitors</p>	L	M	H	<p><u>STAFF AREAS/BASES</u></p> <p>Social distancing and hand washing protocol should be followed by all staff.</p> <p>Staff should ensure that they use their own eating and drinking utensils. All areas and surfaces should be kept as clear and clean; <u>all dishes should be washed in warm soapy water, dried and tidied away for good hygiene by individuals.</u></p>	L	M	H

						<p>Shared staff spaces should be set up and used to help staff to distance from each other. The number of people in staff rooms at any one time will be limited to ensure 2m distancing can be maintained and face coverings should also be worn.</p> <p>Safe, hygienic and labelled food storage is necessary for shared fridges by staff.</p> <p>Universal signage should continue into any staff areas/bases and offices. Where there is a sink in the area, soap and paper towels should be available. Bin placed near sink.</p> <p>Areas to be kept well-ventilated where possible. Reduce the range of resources to be used. Reduce the sharing of resources as much as possible. Trays of equipment for individuals should be created.</p> <p>Hand sanitiser will be available in each staff area.</p>			
Spread of infection during canteen use / break and lunchtimes	Staff Children & young people	Cross contamination of infection. Infection of staff, children and visitors	L	M	H	<p><u>BREAK AND LUNCHTIME</u></p> <p>If staff and pupils go off site, they should follow rules in place for wider society. Sanitisation of hands will be encouraged on their return to the school building.</p> <p>The need for handwashing/hand sanitisation prior to eating food will be reinforced. Hand sanitiser will be available where people eat and should be used by all persons when entering and leaving the area.</p> <p>Canteen use Canteen staff should continue to follow Food Standard Agency's (FSA) in food preparation and their Hazard Analysis and Critical Control Point (HACCP) processes. Covid-19 Guidance can be found here.</p> <p>Use of the Catering Services app will be encouraged. This will assist with the flow of pupil queues.</p> <p>Payments will be taken by contactless methods wherever possible. Touch pads will be removed from all till points. Payment will be taken by card or look up by catering staff.</p> <p>Drinking water is provided in the social area (all day) and canteen (during social times), with enhanced measures of the tap mechanism introduced.</p> <p>All rubbish and waste will be encouraged to be put straight in the bin by pupils/ the user and not left for someone else to clear up.</p> <p>Service Counters – all staff working at a service counter are required to wear a face mask during service (unless exempt on medical grounds). In addition, visors can be used at staff member's discretion.</p>	L	M	H

					<p>All areas used for eating must be thoroughly cleaned at the end of each break and shift, including chairs, door handles, vending machines etc.</p> <p>Catering Risk Assessment found here.</p>
