TOGETHER CREATING POSITIVE FUTURES

## **Our PHRASES**

"Right Time, Right Place, Right Tone, Thank You"

"I hear what you're saying, now I need vou to..."

"Phones away for Learning, Thank You" "Round in 5 for Learning, Thank You"

## **Our RESPONSE**

"I hear what you're saying. The rule was about being R/R/S. I have seen you doing this really well before. I need you to be more R/R/S. Thanks for listening."

The Lesson Observation Cycle at Fraserburgh Academy is a comprehensive quality assurance policy designed to ensure that every student receives a high-quality education. This cycle involves a systematic process of observing, assessing, and improving teaching practices within the school. The primary goal is to enhance the learning experience for all students by promoting the following key elements in every lesson:

- **1. Clear and Focused Learning Intentions:** The foundation of any effective lesson is a clear and explicit statement of what students are expected to learn. Teachers at Fraserburgh Academy are expected to articulate these learning intentions at the beginning of each lesson, ensuring that students understand the purpose and goals of their learning.
- **2.** Challenging and Inclusive Success Criteria: In alignment with the learning intentions, success criteria are set to establish clear benchmarks for students to gauge their progress. These criteria should be challenging yet attainable and should consider the diverse needs of all learners, ensuring inclusivity.
- **3.** Engaging and Relevant Lesson Starters: To capture students' attention and foster a positive learning environment, lesson starters are designed to be engaging and relevant to the topic at hand. These activities should pique curiosity and prepare students for the lesson ahead.
- <u>4. Differentiated Learning Activities:</u> Recognizing that students have varying abilities and learning styles, teachers are encouraged to incorporate differentiated activities that cater to diverse needs. This ensures that all students can access and engage with the content effectively.
- <u>5. Pace and Challenge:</u> Striking the right balance between pacing and challenging students is crucial. Lessons should neither move too slowly nor be overly fast-paced, ensuring that students can grasp the material while feeling appropriately challenged to reach their potential.
- <u>6. Knowledge of ASN (Additional Support Needs) in the Lesson:</u> Inclusivity is a priority, and teachers are expected to be aware of and address the additional support needs of any students in their class. This may involve modifications, accommodations, or additional resources to support individual learning requirements.
- <u>7. Use of Positive Behaviour and Management Strategies:</u> Classroom management is key to a conducive learning environment. The use of positive behaviour and management strategies, such as those provided by The Fraserburgh Way approach, helps maintain a respectful and focused classroom atmosphere.
- **8.** Appropriate Extension Work/Homework: To support both consolidation of learning and the advancement of high-achieving students, teachers should provide extension work or homework that is meaningful and aligned with the lesson objectives.
- **9. Consistent Entrance and Exit Routines:** Establishing consistent routines for entering and leaving the classroom helps with time management and sets expectations for behaviour. These routines contribute to a structured and organized learning environment.

**10. Effective Use of Resources:** Teachers are encouraged to utilize available resources effectively, including technology, teaching aids, and materials, to enhance the learning experience and engagement of students.

The Lesson Observation Cycle at Fraserburgh Academy involves regular classroom observations, feedback sessions, and professional development opportunities for educators. It emphasizes collaboration among teachers and administrators to continually improve teaching practices and ensure that all students receive a well-rounded and meaningful education. By adhering to these principles, Fraserburgh Academy strives to create a nurturing and inclusive learning environment that fosters academic excellence and personal growth for all its students. Teaching staff are also expected to:

- Keep an ongoing professional learning log
- Update professional learning and development records to shape annual PRD meetings

#### Faculties are expected to:

- Support and challenge each other to continually improve L+T practice
- Regularly use data to evaluate impact of L+T strategies

Quality Indicators: 1.2, 2.3 and 3.2
